Career Objective

Motivated and passionate B.Sc IT student with skills in frontend and backend web development technologies including HTML, CSS, JavaScript, SQL, MySQL, and PHP. Interested in gaining practical experience through IT and Web Development internships while building modern and responsive web applications.

Education

- Ksd's Model College 2026
Course: Bachelor of Science in Information Technology, Sem V
 - Seth Hirachand Mutha College 2024
Course: HSC(Science), Qualified by-50.33%
 - The South Indian Association High School 2022
Course: SSC, Qualified by-68.20%
-

Technical Skills

- Web Technologies
 - HTML5
 - CSS
 - Basic Python
 - Basic JAVA
 - Tools & Version Control
 - Git
 - VS Code
 - Unity Engine
 - MS Excel
 - STAR UML
 - Operating Systems
 - Windows.
-

Projects

- **RAIL RUSH – Online Railway Ticket Booking Web Application**
 - **Role:** System Designer & Developer under guidance.
 - **Technologies:** HTML, CSS, JavaScript, PHP, SQL, XAMPP.
 - Developed an online railway ticket booking web application to facilitate ticket reservations for local trains, express trains, and metro services.
 - Designed and implemented an interactive front-end using HTML, CSS, and JavaScript to provide users with a smooth booking experience.
 - Built the backend using PHP and SQL in XAMPP to manage user registration, login, and ticket booking records efficiently.

- Integrated database functionality to securely store user credentials and ticket reservation details.
 - Implemented modules for train selection, passenger detail entry, ticket confirmation, and booking record management.
 - Generated digital tickets after successful booking and enabled users to download ticket details for future reference.
 - Structured the system to simulate payment processing and maintain complete booking workflow operations.
 - Applied user authentication mechanisms to ensure secure login and protected access to booking feat
-

Interests

- Frontend Development
- UI/UX Design
- Responsive Website Design
- Modern Web Technologies
